

## Taxonomy Trail    Week 1-Everything in the World

1. Discussion on how every living thing in the world is connected in some way to each other.
2. Glossary Folders handed out
3. Cover decorated
4. Vocabulary discussed and highlighted in glossary :
  - Preserves
  - Docent
  - Vertebrate
  - Invertebrate
  - Taxonomy

4. Break up into groups and choose a preserve name from preserves in Washington

5. Activity in class: Categorizing (classifying) familiar objects

HOMEWORK: Students will classify/sort beans by various characteristics down to "individuals." Beans will be glued onto a Sorting Grid

***Reminder!! Bring your materials fee (\$5) to the next class***
