

## **ASSIGNMENT SHEET - PRE ALGEBRA**

**Mrs. Golladay**

Complete the following lessons for the weeks assigned. Remember to use the practice problems we did in class to help you with the "tricky" problems. After completing each lesson, have your parents grade your work. You can go back and give any wrong answers another try. Your parents should record your score both times. Mrs. G will average your 2 scores. You can turn in your scores either on the math score sheet you received or on the actual homework. If you have the CD for this text, you should use it to review problems you missed the second time through. Make a note of any problems you would like to cover in class. Parents should also grade your test.
