

Middle School Study Skills Assignment Sheet

October 4

Assignments due October 11

In one of your classes use the FACT method of active listening. Fill out the FACT form and hand in next week. Be ready to share your experience with the class.

Some people seem to be able to learn by listening more easily than others. Learning by listening is a part of the learning style. Do you know how well you learn by listening? Read the questions below, and think about the question before writing your answers.

1. Do you understand directions better when you can listen to them rather than read them?
2. Do you then remember what you hear on the radio, in church or youth group?
3. Do you remember a story better when you can listen to it rather than see it acted out?
4. When you are learning something new, would you rather just start right in and try it or listen to someone explain it to you first?
